

PROTECNIC
Innovating together

**“ Experience in the
plastics industry
together with our
advanced facilities
and human
resources define
our work .”**

PROTECNIC as a manufacturer of PVC and ABS edgebands with more than 25 years of experience in the furniture and habitat sector, we have become a reference at a national level with an increasingly presence at an international level.

With “INNOVATING TOGETHER” as our motto, at Protecnic we have created an alliance with the leading wood-based panels manufacturers and we currently have more than 5,000 references in designs, which fit any board.

LEARN MORE ABOUT OUR ADVANTAGES

Flexible production. As manufacturers, we can adapt any design to the texture, thickness or width that the customer needs.

In-house production. We manufacture 100% of our products in our facilities, offering a 100% Spanish-made product.

High quality standards in processes, environment and occupational safety.

Experience. With a long history in the sector and working hand in hand with the main board melamine brands and suppliers, we have become one of the leading companies in innovation.

Decors. We work directly with some of the main board melamine manufacturers such as **TABLEROS**, **HISPANOS**, **SONAE**, **EGGER**, **FINSA**, **LOSAN**, **KRONOSPAN**, **SUDESA** among many other manufacturers and we can make the “perfect match” for any design in a few days. At no cost to our clients.

With our sample program you will be able to find the design that best match your preferences and needs. We create any type of design with more than 50 decoration rollers to be able to imitate any seam of wood or effect, as well as a selection of more than 40 pores to achieve the most similar textures to the board.
