Tambour doors KIT

TAMBOUR DOORS KIT

The most competitive solution

Protecnic tambour doors kit has two slat models. Its high level of technical development has allowed us to offer profiles with an optimal quality/price relation, sustaining all the quality standards that our clients demand of us.

Classification M1 by UNE: 23727-90 1R

Designs & Finishes

We offer a wide range of designs currently consisting of 30 different designs.

According to the client's needs, we can incorporate new and customized designs into our program.

Supply & packaging

The profiles are supplied crimped in boxes with 8 sets.

Custom lengths are cut to customized size.

Profiles:

051 / 064 - Supplied in 8 sets (16 doors) 600 mm wide.

The tambour doors KIT offer:

Quality and design options.

Door sets fully assembled.

Completely mechanized end slats.

Track system

WOOD CABINET

This system is a set of 90° and 180° curves, which, combined with our guide profiles, allows us to offer the perfect guide system to be fitted into wooden cabinets.

We have the entire guide system both in 8mm (blind 051) and in 12mm (blind 064).

The entire system is made of polyamide PA6, to guarantee and improve the sliding of the set of tambour doors profiles.
